North Algona Wilberforce
- Energy Plan 2014

Our Goals and Commitments

Living in the 21st Century, there have come to be some great advancements in science and technology, especially where conserving energy and doing our best for the environment by eliminating greenhouse gas emissions is concerned. North Algona Wilberforce has our mind set on helping in these causes by taking strict measures for helping aide in the well being of the environment and helping conserve energy where we can.

Using low efficiency light bulbs, window coverings that block out the strong sun rays, conserving gas and diesel by the public works workers driving together to job sites and keeping the thermostat registered at tolerable level in the hot days in the summer and the cold days in the winter.

Some of our objectives for our 5-Year Plan are:

- Educating employees and having staff awareness
- Efficient maintenance practices and thorough operating
- Consistently checking for new and emerging technology upgrades through investigation and research as well as leadership demonstrations within the municipality
- Set realistic measures for long term energy conservation and follow through on our demand management plan
- Sustain reliable, low cost and sustainable energy sources

Section #1

Township Profile

Basic Information

The Township of North Algona Wilberforce is 35,922 hectares and has an approximate population of 2,483.

Our contact information is:

1091 Shaw Woods Road
Eganville, ON
K0J 1T0

Telephone: (613) 628.2080

Fax: (613) 628.3341

Roads: (613) 628.2618

Email: naw@nalgonawil.com

Website: www.nalgonawil.com

Our Members of Council and Key Personnel are:

Mayor – Harold Weckworth

Councillor – Kevin Clarke

Councillor – Lorenz Kelo

Councillor – John Keuhl

Councillor – Ruth Schoenfeldt

Senior Management:

Clerk Treasurer – Marilyn Casselman

Public Works Superintendent – Scott Clark

Commitment to Apply

On December 17th, 2012 the Township of North Algona Wilberforce passed Resolution #10 as follows:

THAT: North Algona Wilberforce Township does an Energy Audit and apply to Hydro One for a save on energy Audit Funding.

This Resolution was
Moved by Councillor Lorenz Kelo
Seconded by Councillor Ruth Schoenfeldt

The motion was carried.

Ontario Regulation 397/11

This plan has 2 Stages:

Phase 1: Report Energy Consumption and Greenhouse Gas Emissions

Phase 2: Submit a 5-year Conservation and Demand Management Plan

Summary of Facilities

NAME	FACILITY TYPE	ADDRESS	SIZE (F ₂)
Township Office/Roads	Admin Office/Roads Garage	1091 Shaw Woods Road	7500
Township Cottage	Indoor Recreation Facility	28 C Township Park Road	2350

Rankin Fire Hall	Fire Station	37 Marsh Road	2400
Deacon Fire Hall	Fire Station	92 Old Bridge Road	1600
Golden Lake Community Centre	Community Centre	3310 Lake Dore Road	2700
Berndt Road Waste Site	Waste Site/Office	219 Berndt Road	100

Facilities in our Township

Administrative Offices, Fire Halls and related facilities;
including Municipal and Council Chambers

Township of North Algona Wilberforce Municipal Office and Roads Garage/Yard

1091 Shaw Woods Road
Eganville, ON K0J 1T0
TOTAL SQUARE FOOTAGE: 7,500

This facility not only houses our Administration Office but also the Public Works Office, Garage and Works Yard.

The original portion of the building was constructed in the 1980's and then had renovations in 1999 when North Algona and Wilberforce Townships were amalgamated.

The building consists of a few sections, including:

- A Front office space for 3 administrative workers
- A office for the Public Works Director
- A kitchen
- The council chambers
- 2 storage rooms
- A garage

This building uses Hydro as well as Propane for heat.

The Administrative office operates on the hours of 8:30AM – 5:00PM Monday to Friday and the Public Works Department runs on the hours of 7:30AM – 3:30PM

In addition to the office hours, the Council Chambers are used twice a month for regular meetings through the year, with the exception of July and August only being once per month. It is also used on a “as needed” basis for committee meetings, training and other Council related activities.

Township of North Algona Wilberforce Park/Cottage/Ball Field

28 C Township Park Road

Eganville, ON K0J 1T0

TOTAL SQUARE FOOTAGE: 2,350

An enjoyable part of our township is the Township Cottage and Ball Field facility that gets rented out over the course of the summer months to cottagers and community members.

The Lake Dore Cottage was built in the 1900's and the Township took ownership in 1973. It consists of kitchen:

- 2 bathrooms (upstairs and main level)
- One summer kitchen
- 2 bedrooms up stairs
- One living room (main level)

This building is used for rental during the summer months for family reunions, recreation events, church groups and community gatherings.

Since this particular building has no heat, its only energy consumption comes from hydro.

Rankin Fire Hall

37 Marsh Road

Pembroke, ON K8A 6W4

TOTAL SQUARE FOOTAGE: 2,400

The Rankin Fire Hall is the newest facility in our township, being built in 2003. It has the following layout:

- Bays for fire trucks
- A conference room upstairs
- Two bathrooms
- A utility room
- One office

The heat source for this building is Furnace Oil and uses Hydro for its power source.

This facility is used bi/weekly for Fire Practice, truck and equipment inspections as well as for some fire department events and community events. Training takes place here as well every so often when needed.

Deacon Fire Hall

92 Old Bridge Road

Golden Lake, ON K0J 1X0

TOTAL SQUARE FOOTAGE: 1,600

The Deacon Fire Hall is used as a storage facility in our township, being built in 1992.

It has the following layout:

- A single bay for a fire truck
- One bathroom

The heat source for this building is Propane and uses Hydro for its power source.

This building does not house meetings and such and is just designed as a storage facility.

Conclusion

Conserving energy and being energy efficient in the Township of North Algona Wilberforce is of the utmost importance in our beautiful Municipality. As the environment is in need of our help more and more every year, it will be this municipalities duties to encourage electricity conservation to help reduce harmful Greenhouse Gas Emissions; through tactful methods of conservation.

Powering down electronics overnight, holidays and weekends in the office, as well as scheduling public works projects around less travelling of equipment at different times.

Encouraging staff members, council member and committee members to help in aiding this great cause as well, through educational training sessions and the monitoring of facilities energy consumptions.

If everyone works together, we can help lower GHG Emissions and help this planet stay fresh and clean.
